December 3<sup>rd</sup>, 2009

## News Release

SIRCOMM will post digital audio files of all public meetings beginning as of November 23, 2009.

It is the desire of the Joint Powers Board that the public have every opportunity to understand what SIRCOMM does, how SIRCOMM operates, and what progress is being made to ensure that the public's safety is top priority, as well as the safety of emergency responders.

The SIRCOMM advisory boards, law, fire and EMS will determine if their meetings will be available at their next scheduled meeting.

The audio recordings of the meetings are offered as a convenience to our residents, however, the OFFICIAL RECORD of actions of the SIRCOMM Joint Powers Board are the minutes, as written and approved for each meeting.
